Electronic Certificates of Origin Processing

The Reno + Sparks Chamber of Commerce is excited to announce it is moving the Certificates of Origin processing service to an electronic platform utilizing EssCert. Companies will need to register with the Chamber and EssCert. Please contact us for the registration form to get started today.

EssCert Certificates of Origin are accepted in 198 US recognized countries around the world. There are several features to save time:

- EssCert is the industry standard, and is designed to cater for all submission types. It allows exporters and freight forwarders to electronically process their export documents irrespective of how they are created
- Significantly reduce data re-entry by creating a company specific database to reduce repetitive work
- Create a certificate of origin online and submit online for Chamber approval and processing
- Reduce risk of liability and fraud
- Slash shipment delays
- Payment will be made online at the time of submission to the Chamber
- Ability to upload supporting documents such as packing lists and Pro Forma Invoices
- Certificates of Origin generated directly from the system contain a QR Scan Code/20 digit number customs will be able to use to validate the authenticity of the Certificate of Origin

Pricing per Transaction* (Transaction= one electronic stamp):

Member Online Transactions	\$10.00
Member In-Person Transactions	\$15.00
Non-Member Online Transactions	\$20.00
Non-Member In-Person Transactions	\$25.00

**Members generating more than 10 certificates per month are encouraged to call the Chamber for additional pricing information.*
