

## Nevada Obesity Collaborative July 11, 2024 | 9:00 AM – 10:00 AM

*Our mission is to focus on awareness through education on the science of obesity while changing the perception and stigma, formulating a step approach for obesity management, and ultimately reducing obesity across the state as well as the co-morbid conditions associated with it. Obesity is a chronic and progressive disease but is often not treated the same as other chronic conditions.*
